This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. † The expenditure from Loans has been classified in this table under the headings made use of in the Schedules to the various Loan Acts, this being the method adopted by the Treasury. Information as to the total amount *actually* spent under some headings of Expenditure is consequently not obtainable, certain items being included under the indefinite heading "Development of Goldfields and Mineral Resources." "Electric Telegraphs," and "Water Supply and Sewerage" are probably most affected by this classification.

* In cases where blanks occur the article, if imported, was probably classified under some general heading and not particularly specified. † The value of dynamite imported during 1896 (£45,299) was accidently omitted when making up the Return of Imports for 1896. The amount, therefore, is accounted for in the total Imports for 1897. ‡ £42,000 out of this amount was, through a clerical error, omitted from the total amount of Imports for 1896, and therefore is accounted for in the total Imports for 1897. § Through a clerical error, £7,080 of this amount was omitted from the total amount of Imports for 1895, and is therefore accounted for in the total Imports for 1896.

The old jetty neck—1,000ft. long—has been left standing and has been replanked, with a view to its use as a promenade. The jetty head is in course of extension for a distance of 458ft., and a width of 85ft. 6in. This will give, when completed, in addition to present berths, 2 berths with 21ft. L.W.M., and 2 schooner berths at 17ft. L.W.M. There has also been provided, at 940ft. on town jetty, a landing stage for launches, which land passengers, mails, etc., from the steamers; this is 90ft. by 26ft., giving berths for 3 launches, with 8ft. L.W.M. A shelter-shed, 52ft. by 18ft., has been erected on the landing stage.

* Included under heading "Orchards."

** The apparent falling off in 1896-97, as regards the heading "Orchards," is to some extent explained by the fact that the acreages now separately specified under "Onions," "Other Root Crops," "Market Gardens," etc., were in previous years all included under the one heading.

† *The acreages under "Vines" and "Fruit Trees" in 1896-97 and subsequent years have been compiled on the basis of the actual number of vines and fruit trees planted according to a standard supplied by the Department of Agriculture, which allows 600 vines or 100 fruit trees to the acre; a comparison between the figures of these years and those of previous years is, therefore, valueless.*

‖ Includes 27½ acres *miscellaneous crops.*

* Bursaries of the value of Ten pounds have been offered to the girls attending the Elementary Schools of the Colony for several years past. In 1895 they were extended to the boys also.

† The examination being similar to that laid down for the High School Scholarships, one of which happened to be vacant, this Scholarship was, in place of the bursary, offered to, and accepted by, the boy who had passed; no bursary was, therefore, actually given.

‡ In 1899 the Bursaries were for boys and girls without distinction of sex. One boy and one girl obtaining equal marks, the prize was divided between them. In the above table each has been credited with winning a bursary.

Part XII.—MISCELLANEOUS.

No. 6.—*Rainfall in Western Australia during 1899.*

With averages (to the end of 1899) for all stations having at least 5 years' record. 100 Points=1 inch. The Sign ... signifies "no rain fell." The Sign — signifies "no record."

Note.—The stations are grouped into districts, and these are subdivided into square degrees, which are figured according to the latitude and longitude of the N.W. corner of each square, the first two figures representing the latitude, and the last two the longtitude, less 100°. Thus Perth is in the square 3115, showing that its latitude is 31° odd minutes, and its longitude 115° odd minutes. The mean rainfall for each square degree is adopted from all the stations situated in that square having complete records for 1899. The average is taken for all years up to and including 1899.
